## RADAR Update: Extended use and flexible payment options

**Karlsruhe, February 14<sup>th</sup> 2025 — Good news just in time for the international Love Data Week: RADAR, FIZ Karlsruhe's research data repository, is opening up to an international user community. Soon, institutions outside Germany will also be able to easily offer their own institutional repository in the cloud. In addition, users from other publicly funded institutions will also have the opportunity to use RADAR for data archiving and publication. As a further option, RADAR has recently started offering a pre-payment option.**

RADAR will thus be available to a wider range of user institutions: in addition to publicly funded universities, colleges and research institutions, public or publicly funded museums, libraries, archives and memorials in Germany, the EU, Switzerland and the UK can also use the service. Until now, the RADAR Cloud and RADAR Hybrid services were limited to publicly funded research institutions and universities in Germany.

Appropriately enough, we can announce this news during Love Data Week - an international week of action dedicated to research data and research data management. Data archiving and publication at RADAR follow the FAIR principles (Findable, Accessible, Interoperable, Reusable) – for to really love data means to keep them findable, usable, and interpretable!

Interested to learn more about RADAR? Visit the [RADAR website](#) to find detailed information on our offers, or feel free to contact our RADAR product manager Kerstin Soltau at any time:

By the way: RADAR also posts on Mastodon and Bluesky!

.....  
FIZ Karlsruhe – Leibniz Institute for Information Infrastructure is one of the leading addresses for scientific information and services and a member of the Leibniz Association. Our core tasks are to provide science and industry with professional research and patent information and to develop innovative information infrastructures, with, for example, a focus on research data management, knowledge graphs and digital platforms. To this end, we conduct our own research, cooperate with renowned universities and research associations and are internationally and interdisciplinarily networked. FIZ Karlsruhe is a non-profit limited liability company and one of the largest non-academic institutions of its kind. For more information, please visit [www.fiz-karlsruhe.de/en](http://www.fiz-karlsruhe.de/en)
